

# Irvan Hidayat

## Quality Assurance Engineer

Semarang, Indonesia | irvanhidayat432@gmail.com | +62 821 3666 5563

### PROFESSIONAL SUMMARY

---

Quality Assurance professional with 3+ years of experience testing a live loyalty membership application, covering functional, regression, User Acceptance, and API testing. Experienced in working closely with developers to document and follow up on bugs. Background as a System Analyst and Project Manager on ERP and POS systems, which supports strong requirement analysis and cross-team communication. Currently developing into test automation with Playwright and TypeScript.

### SKILLS

---

**Testing:** Functional Testing, Regression Testing, User Acceptance Testing (UAT), API Testing, Test Case Design, Bug Reporting

**Automation:** Playwright with TypeScript (personal projects, actively learning), Selenium IDE (record and playback)

**API & Database:** Postman, Apidog, MySQL, PostgreSQL

**Programming:** JavaScript, TypeScript (learning), PHP, Laravel, HTML, CSS

**Tools:** Jira, ClickUp, Trello, Figma, Git, GitHub, GitLab, Jam, Microsoft Office, Google Workspace

**Soft Skills:** Problem Solving, Critical Thinking, Communication & Collaboration, Time Management, Attention to Detail

### WORK EXPERIENCE

---

**Quality Assurance** | Mar 2022 - Present

PT Kiara Inovasi Teknologi, Semarang, Indonesia

- Ensure the quality of **myKiara**, a loyalty membership platform where users join partner merchants and earn points and vouchers.
- Design and execute functional testing, regression testing, and User Acceptance Testing (UAT) to verify the application meets specifications.
- Perform API testing with Postman and Apidog whenever new features or endpoints are released.
- Collaborate closely with developers to identify, document, and follow up on bugs until resolved.
- Built automated test flows using Selenium IDE (record and playback); currently learning Playwright with TypeScript to move toward code-based automation.

**Project Manager** | Sep 2022 - Nov 2022

Nocturnal Resto, Semarang, Indonesia

- Managed the full lifecycle of a restaurant Point of Sale (POS) application, from planning and team coordination to implementation.
- Identified business requirements, built project timelines, and oversaw key features: order management, payment processing, inventory management, and sales reporting.
- Communicated with stakeholders to keep the solution aligned with operational needs.

**System Analyst (Freelance)** | Mar 2021 - Dec 2021

PT Neritama Karya Lestari, Jakarta, Indonesia

- Analyzed business requirements, designed system architecture, and prepared technical documentation for ERP modules: Purchasing, Inventory, Production Planning, and Sales & Distribution.
- Coordinated with the development team to ensure integration between modules and implementation aligned with operational needs.

**System Analyst (Freelance)** | Jun 2019 - Jul 2019

Jogja Airport Resto, Yogyakarta, Indonesia

- Analyzed requirements, designed system workflows, and prepared technical documentation for a restaurant POS application, coordinating with developers.

**Junior Web Developer (Internship)** | May 2017 - Aug 2017

DPM-PTSP (Investment and One-Stop Integrated Service Office), Semarang, Indonesia

- Designed, developed, and tested a licensing application for SIUP and TDP permits.

### PROJECTS

---

**myKiara | Mar 2022 - Present**

Mobile-based loyalty membership platform connecting merchants and customers through membership programs, points, and promotional vouchers. Role: Quality Assurance.

**POS Nocturnal | Sep 2022 - Nov 2022**

Web-based POS for Nocturnal Restaurant with menu and ingredient management, stock opname, promotional discounts, and cashier system. Role: Project Manager.

**ERP PT Neritama Karya Lestari | Mar 2021 - Dec 2021**
